Explanation of the Articles of the Calendar.

These pages are calculated for Toronto and Quebec, and for ordinary purposes will serve with sufficient accuracy every city in Canada.

MOON'S PHASES.—This Table gives the times for the two meridians when the moon passes the geocentric longitude of 0° , 90° , 180° and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this table are given the times at which twilight begins in the morning and ends in the evening, i.e. the times when the sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45° . When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following table.

Degrees of Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	- $5' 58''$	- $4' 5''$	- $2' 5''$	$0' 0''$	+ $2' 12''$	+ $4' 32''$	+ $6' 59''$	+ $9' 34''$	+ $12' 1''$
2nd Correction for each minute of latitude.....	+ 1.9''	+ 2.0''	+ 2.1''	+ 2.2''	+ 2.3''	+ 2.5''	+ 2.6''	+ 2.7''	

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45° .

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the table by the number of minutes in the latitude.

Thus for latitude $43^\circ 20'$...1st correction = - $4' 5''$ 2nd correction + $2.0 \times 20 = + 40''$
 " " " " " + $4' 32''$ " " + $2.5 \times 40 = 1' 40''$
 " " " " " " " + $2.2 \times 10 = 0' 22''$

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of Toronto.

When the planetary day is shorter than the mean solar day, and commences soon after the midnight of the preceding day, the planet will sometimes arrive a second time on the meridian before the expiration of the actual civil day. From analogous causes a planet will sometimes rise twice or set twice in the same civil day. When two culminations occur in the same day, or two risings or settings, the times of both are registered.

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction both for Toronto and Quebec.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto and Quebec.

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for Toronto. They are not corrected for parallax or refraction.

The column SUN ON MERIDIAN gives the time that a watch should shew when the shadow of a sun dial is on the noon mark.

Moon's AGE.—This column shews to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the moon's centre passes the meridian of Toronto. When in the column headed Moon's rising or setting or Moon on meridian the letters A.M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) that day.

The column, UPPER TRANSIT OF POLE STAR shews for every day the mean time at which the Pole Star makes its upper transit across the meridian of Toronto. It passes in the morning from April 9 to October 9, and in the afternoon the rest of the year, excepting on October 10, when it does not cross the meridian.

The four last columns, although computed for Toronto, will serve with sufficient accuracy for the whole of Canada.

The time at which the lower transit of the Pole Star occurs may be found by adding 11 h. 58 m. 2 s. to the time of the preceding upper transit.

From the time of the upper transit of the pole star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Star Table.

From the times of the first transit of the Pole Star may be derived, with the aid of the following table, the times of its setting, and of the second setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a Star, add the same number to the time of its meridian passage. Those stars marked (.....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Eclipses.

In the year 1863 there will be two Eclipses of the Sun and two of the Moon.

- | | |
|--|---|
| I.—A partial Eclipse of the Sun, May 17, invisible in Canada. | III.—An annular Eclipse of the Sun, November 10, invisible in Canada. |
| II.—A total Eclipse of the Moon, June 1, partly visible in Canada. | IV.—A partial Eclipse of the Moon, Nov. 24-25, visible in Canada. |

TOTAL ECLIPSE OF THE MOON, June 1.

The end of the total phase will occur before the Moon rises at each of the places named in the following table, which gives the local mean time (p.m.) of the last contacts of the shadow and penumbra. The last contact with the shadow occurs at 108° from the northernmost point of the Moon's limb towards the west.

JANUARY.

It freezes on,
Till morn, late rising o'er the drooping world
Lifts her pale eye unjoyous. Then appears
The various labour of the silent night:
Prone from the dripping eave and dumb cascade,
Whose idle torrents only seem to roar,
The pendant icicle; the frost work fair
Where transient hues and fancy'd figures rise.

MARCH.

The loosen'd tempest reigns:
The mountain thunders; and its sturdy sons
Stoop to the bottom of the rocks they shade:
Low waves the rooted forest, scatter'd by the winds
Assiduous fury, its gigantic limbs—
Thus struggling through the dissipate grove
The whirling tempest raves along the plain.

FEBRUARY.

The whit'ning shower descends
Broad, wide, and fast, dimming the day
With a continual flow. The laborer-ox
Stands cover'd o'er with Snow:—The fowls of heaven
Tam'd by the cruel season crowd'd around
The winnowing stores, and claim the little boon
Which Providence assigns them. The bleating kind
Eye the bleak heaven—and sad, dispers'd,
Dig for the wither'd herb, through heaps of snow.

APRIL.

No more
Th' expansive atmosphere is cramp'd with cold;
But, full of life and vivifying soul,
Lifts the light clouds sublime, and spreads them thin,
Fleecy and white, o'er all surrounding heaven.
The softer gales succeed, at whose kind touch,
Dissolving snows in livid torrents lost,
The mountains lift their green heads to the sky.

MAY.

Oft let me wander o'er the dewy fields
Where freshness breathes, and dash the trembling drops
From the bent bush, as through the verdant maze
Of sweet-brier hedges I pursue my walk,
And see the country far diffus'd around,
One boundless blush, one white-ampurled shower
Of mingled blossoms.

JUNE.

The breathing prospect bids the muse
Throw all her beauty forth. But who can paint
Like nature? Can Imagination boast
Amid its gay creation, hues like hers?
Or can it mix them with that matchless skill,
And lose them in each other, as appears
In every bud that blows.

JULY.

'Tis raging Norn:—The mower sinking heaps
O'er him the humid hay, with flowers perfum'd;
And scarce a chirping grass-hopper is heard
Thro' the dumb mead. Distressful nature pants.
The very streams look languid from afar;
Or thro' th' unshelter'd glade, impatient, seem
To hurl into the covert of the shade.

AUGUST.

Attempered Suns arise
Sweet beam'd, and shedding oft through lucid clouds
A pleasing calm; while broad, and brown, below
Extensive Harvests hang the heavy head.
Rich, silent, deep, they stand; for not a gale
Rolls its light billows o'er the plain:
A calm of plenty!

HOLY AND SAINT DAYS, &c., MEMORABLE EVENTS.

SEPTEMBER.

Hence from the busy, joy-resounding fields
In cheerful error, let us tread the maze
Of Autumn, unconfin'd: and taste reviv'd
The breath of Orchard big with bending fruit.
Obedient to the breeze, and beating ray
From the deep loaded bough a mellow shower
Incessant melts away.

A sober calm
Fleeces unbounded ether: whose least wave
Stands tremulous, uncertain where to turn
The gentle current. Then is the time
For those whom wisdom and whom nature charm,
To sooth the throbbing passions into peace,
And woo lone quiet in her silent walks.

NOVEMBER.

Then comes the Father of the tempest forth,
Wrapt in black glooms. First joyless rains obscure
Drive thro' the mingling skies with vapor foul;
Dash on the mountain's brow, and shake the woods,
That grumbling wave below.
Snatch'd in short eddies plays the wither'd leaf
And on the flood the dancing feather floats.

Mysterious round! what skill, what force divine,
Deep felt, in these appear! a simple train,
Yet so delightful mixt with such kind art,
Such beauty and beneficence combined;

That as they still succeed, they ravish still.

The year 1861, with respect to its temperature, exhibited, as a whole, nothing extraordinary, the mean of the year differing from the average of twenty-two years to the extent of only 0°.10 in excess. The monthly means, moreover, did not differ in a marked degree from the means proper to the several months derived from twenty-two years, the average deviation, without regard to sign, being 2°.24; while the average deviation in the whole period of twenty-two years, and referred to the same standard, was 2°.44. If, however, the signs of the deviations be taken into account, it will be seen that the compensations by which the annual mean was maintained, were of the kind that may be styled *unseasonable*, being such as tended to weaken rather than to intensify the distinctive characters of the different parts of the year. Thus, from May to August—comprising the greater part of the year in which the temperature is *above* the yearly mean—the monthly means were relatively *low*; while in February and December, the monthly means were relatively *high*. The depression (3°.9) in the temperature of May, was never exceeded in any May of former years, and was nearly approached only in 1849 and 1851, when in both cases the cold of May was succeeded by unusual warmth in June and July. The abnormal warmth of April served only to aggravate the evil, by hastening the vegetation that was thrown back by the frosts that followed in May. The bad effects of a generally low summer temperature may perhaps be modified, as regards some plants, by occasional bursts of heat, though they be necessarily balanced by unusually low temperatures at other parts of the season. No such mitigating circumstances occurred in 1861, as the warmest day and the absolutely highest temperature of the year were both below the twenty-two years' average.

The hygrometric condition of the summer was not favourable; the mean relative humidity of May, June and July, being 70 against 74, the twenty-one years' average for these months. But as the temperatures were low, the foregoing numbers do not present so strong a contrast as do the tensions of vapour, which for the same three months were .359 in 1861, and .393 on the average of twenty-one years. The contrast in this respect between 1860 and 1861, was very conspicuous in May, the tension of vapour for this month being more than 41 per cent. greater in 1860 than in 1861.

May and June were 8 per cent. and 16 per cent. less cloudy than is usual in those months; while later in the season, when a bright sun is more in request, clouds were more than 20 per cent. in excess.

The depth of rain, which on the whole year was three inches in defect, was deficient in June and July to the extent of more than an inch and a half. In May, when rain is an hindrance to gardening and agricultural operations, it was rather in excess; while, as before stated, there was a want of that moisture in the air whose presence is favourable to the development of young leaves.

In the following summary, the chief meteorological elements relative to the year 1861, are compared with the average results derived from a series of years, as well as with extreme values that have occurred during the same series:

st day in the fore-
age of the warmest
dates, the average
of the several dates,

measured from any fixed epoch. The same remark applies to the *coldest day*, and to the *maxima* and *minima* of the year. As regards the low temperatures, the averages are derived from the coldest days and lowest temperatures in successive winters,—December being considered to belong to the following year.

There were twenty-seven days, in the year 1861, when the mean temperature of the day differed 12° and upwards from the normal mean of the day.

* The average minimum of cloudiness in the second column, is the minimum of the twelve monthly means of nine years, and does not always include the lowest months of each year, as these fall differently in different years. This explains why the *highest* minimum in the fourth column should be numerically equal to the minimum on the average of nine years.

THE EDUCATIONAL RESOURCES OF CANADA.

The Educational resources of a country differ essentially from its resources of almost every other kind. Thus, when we speak of the physical or industrial resources of a country—the mines, its fisheries and its timber—we attach a definite meaning to the term. So also of its more important commercial resources, such as rivers, lakes, natural harbors and indigenous products. All these are in themselves real, actual, tangible. They are God's noble gifts of nature to man, scattered in almost every land with bounteous profusion. Even the Military resources of a country are, to a great extent, uncreated by man's skill. Mountain heights, deep fissiles, positions of natural strength, navigable rivers, miles of lead, iron and saltpetre, and even climate, present such a variety of military resources, that for a country possessed of them, and not destitute of patriotic zeal, to be overrun or conquered, could

not fail to dim the lustre of its arms, even if it would in itself be national disgrace. But the Educational resources of a country are purely artificial. They are the result of man's own forethought and care, but when rightly applied to the cultivation of man's noble powers and faculties, never fail to obtain the blessing of divine Being who is the great central source of human knowledge.

In this paper we propose to speak of these artificial Educational Resources of Canada under the general head of—I. Educational lands endowments. II. State elements of education, &c. III. Municipal assessments. Local aid to education. V. The number, character and value of our Educational Institutions. VI. Libraries. VII. The various supplementary aids to education which are in active operation among us.

Few taking an interest in the subject can look back on the chequered educational history of Canada without mingled feeling of admiration and regret. And as we come the more acquainted with the enlarged views and noble aspirations of early statesmen, and the corresponding princely endowment for education which were made in Upper and Lower Canada before and about the beginning of the present century, our feeling of admiration heightened, while the feeling of regret is deepened as we learn the disappointments, disputes and dissipation of funds which characterized the later educational history of Canada, before even a satisfactory beginning was made in the establishment of its schools and colleges.

No less than three millions and a half of acres of land were set apart from time to time in Lower and Upper Canada for the promotion of education, under French and English Governors. In the educational projects of the statesmen of those times we discover the dim outlines of a great and comprehensive system of public instruction which they evidently had in view, and which was assigned to embrace alike the School and the University. Thus, to the *Grand Monarque*, Louis XIV., and his advisers, specially his famous finance minister, Colbert, are we indebted for the foundation of what has since been expanded to the Laval University at Quebec; and to the no less famous monarch, George III., and his advisers, are we indebted for the present munificent endowment of the Grammar Schools and University of Upper Canada.

As an example of the solicitude felt by His Majesty, George III., in this matter, we will quote the memorable words of the despatch from the Duke of Portland to Mr. Russell, (interim governor,) dated Whitehall, 4th November, 1797, and written in reply to a petition from the Legislature of Upper Canada on the subject. The Duke says, "His Majesty * * * being always ready to show his paternal regard for the welfare of his subjects in the furtherance of so important an object as the instruction of youth, and to assist and encourage the exertions of his province in laying the foundation for promoting sound learning and a religious education, has condescended to express his most gracious intention to comply with the wishes of the Legislature of his Province of Upper Canada in such manner as shall be judged to be most effectual, first, by the establishment of *Free Grammar Schools* in those districts in which they are called for; and secondly, in the process of time, by establishing other *Seminaries* of larger and more comprehensive nature for the promotion of religious and moral learning, and the study of the arts and sciences."

On receipt of this despatch, the Hon. Mr. President Russell directed the members of the Upper Canada Executive Council, the Judges and Law Officers of the Crown, to meet, and, after due consultation, to report for the information of the King, "in what manner and to what extent a portion of the waste lands of the Crown might be appropriated and rendered productive towards the foundation of a fund" for the promotion of the objects named in the despatch. The Committee presented an elaborate report, dated the 1st of December, 1798, in which they recommended (1) an appropriation of ten townships, or 90,000 acres of land, (2) the erection of two free Grammar schools, one at Kingston and the other at Newark (Niagara), (3) the appropriation of \$12,000 for the erection of each school, (4) sale of lands to raise these funds, (5) an annual grant of \$720 to each school, (6) a grant of \$10,000 for the erection of a University, and \$2,880 per annum for its support. Other minor recommendations were added to the report.

The 550,274 acres of land set apart in pursuance of the Duke of Portland's despatch were afterwards, upon the recommendation of the Executive Government, divided between the Grammar Schools, King's College (now the University of Toronto) and University College, and Upper Canada College.

Into the manner in which the splendid endowment which was thus set apart for Grammar and Collegiate Education in Upper Canada, was dealt with, it is not our province nor intention to enter; but we will briefly refer to the several divisions of our subject in the following order, viz.:

Our first point of illustration is—

I.—THE EDUCATIONAL LANDS ENDOWMENT.

1. In Upper Canada.

Through the munificence of the King, the following lands were set apart for the objects named:

	ACRES.
(1.) Grammar Schools	258,330
(2.) Collegiate Institutions	226,200
(3.) Upper Canada College	60,000
	550,530
(4.) Trinity College, Toronto, (private benefactions)	23,655

2. In Lower Canada.

	ACRES.
(1.) Order of Jesuits, for Education	801,845
(2.) Bishop and Seminary of Quebec	693,324
(3.) St Sulpitians, Montreal	250,191
(4.) Ursuline Convent, Quebec	164,616
(5.) Ursulines of Three Rivers	38,909
	2,038,665

3. In United Canada.

	ACRES.
(1.) Parliamentary Appropriation of Lands for Common Schools in Upper and Lower Canada (1859)	1,000,000
Grand total number of acres	3,613,000

The grants of land for religious and educational purposes in Lower Canada were made by the French monarchs before the conquest in 1759, and were confirmed by treaty. Those to the community of Jesuits were made as early as 1634. Grants were also made to this Religious Order in the years 1647, 1651, 1662, 1686, 1690, 1692, and the last in 1699. Upon the suppression of that Religious Order, and after the death of the surviving member in Canada in 1799, the lands reverted to the Crown as equitable trustee to the estates for educational purposes. The Jesuit College of Quebec was however retained by the Imperial Government, and converted into a military barracks, to which purpose it is still applied. Various efforts have been made to obtain the transfer to the estates of this "Jesuit Barrack," but as yet without effect. Intimation has however been given by the Imperial Government that the Jesuit Barrack would be surrendered upon the condition of providing another suitable building for barrack purposes. This cannot be done, however, unless at a disproportionate cost to the value of the barracks, and thus the master rests for the present.

The Parliamentary Grant of a million of acres for Common School purposes in 1859 was chiefly made through the active exertions of the late Hon. Wm. H. Merritt, who at that time was a member of the then existing government. The revenue from the investments arising out of the sale of these lands does not yet equal the parliamentary grant, but it is expected that before many years it will do so, and thus relieve the consolidated revenue of the present annual charge upon it for common schools.

Our second point of illustration is—

Grand Total Legal. and local aid to Education, \$2,891,065

Thus we see that, in addition to the three millions and a half of acres of the public domain set apart permanently for educational purposes in Canada, the annual expenditure of money derived from these lands and other grants on behalf of education and knowledge in the Province, amounts to nearly three millions of dollars. Of these three millions of dollars upwards of two millions are derived from local sources; but of these two millions not one penny is raised by a government tax. Such a thing as a government educational tax is unknown in Canada. Even the amount contributed towards education by the government is chiefly derived from investments arising out of the proceeds of the sale of school and college lands, formerly set apart for these purposes. The balance is paid out of the general provincial revenue.

It is worthy of remark, too, that the imposition of the local rate for school purposes is a voluntary act on the part of the municipal authorities. They are not required by law to raise this rate, and may decline doing so at their pleasure, without suffering any legal penalty. It is true that an apportionment is made from the legislative school grant, on condition that the municipalities raise a sum equal to the amount granted. But this is simply the wise application of the paternal and equitable principle of helping those who help themselves, and involves no compulsion, nor the arbitrary acceptance of the proffered grant. Even in the rural school sections, no rate for the support of the school can be imposed by school trustees without the consent of the assessed freeholders and householders, as expressed at a public meeting called for that purpose.

In Upper Canada, the school and college lands set apart by George III, as already intimated, have for years formed the chief source of revenue for higher education; and in Lower Canada, investments arising out of the proceeds of the sale of the forfeited Jesuit estates and of the Seminary

lands have furnished the principal portion of the means for that part of the Province; while for common school purposes a large portion of the annual parliamentary grant is derived from installments arising out of the proceeds of the sale of the million of acres of lands set apart in 1862, by act of the Provincial Legislature. The balance of the fund is annually made up, out of the general revenue by a vote of the House of Assembly.

Although the aggregate sum expended on behalf of education from various public sources is comparatively large, yet the burthen of this expenditure is so adjusted or distributed as to press lightly upon the whole community. The income which is set apart from the public domain, chiefly for the education of the sons of the wealthier classes at the Grammar School and University, is contributed equally by rich and poor in proportion to their respective interest as rate-payers in the value of these public lands, so also is the income from the same source set apart for Common School purposes, contributed in similar proportions, chiefly for the benefit of the other or less wealthy class. Both are thus alike called upon to contribute towards the support of elementary and higher education not unequally, nor as rich and poor, but as citizens, in exact proportion only to the respective values of the assessed property and to the interest which they have in the public lands as members of the body politic. Thus the burthen of supporting the educational institutions of the country falls justly and equitably as well as proportionably on each class alike. So universally is this obligation felt to rest upon these classes alike, that the objection current some years since in Upper Canada against supporting free school in cities, towns, and rural places, on the parts those who only sent their children to be educated at the Private School, the Grammar School or the University, has almost entirely ceased to exist. As well might the one class object to the support from public sources Grammar Schools and Universities, as for the other to object to a similar support being extended to the Common Schools, either directly by the legislature, or indirectly by making a portion of such support a lien upon the landed property of the country. Indeed, so strong a hold has the general system of public instruction now upon the public mind, that for the legislature to omit a grant of education from its annual votes, or for the municipalities to neglect raising the necessary funds for the support of the public schools, would be deemed the omission of an important and positive duty, and would give rise to serious disappointment and dissatisfaction.

This state of feeling is of comparatively recent growth and has arisen chiefly during the last ten years. For in the fluctuations which our earlier educational system underwent in the matter of grants and the progress of education the public seems to have tacitly acquiesced, or have been indifferent to them. Thus, in 1807, when Grammar Schools were first established in Upper Canada only \$3,200 were granted for their support, while no provision whatever was made for Common or Elementary Schools until 1816—nine years afterwards. In that year \$24,000 were granted for the support of those schools; but in the following year, this sum was reduced to \$10,000. Even in 1832, this annual grant had only reached the sum of \$9,000, and that to Grammar Schools \$4,000. In the following year, however, the grant to Common Schools was increased nearly four-fold, while that to Grammar Schools remained about the same. These grants were continued undiminished until the union of the Provinces in 1840.

During the civil troubles which occurred in 1837-38 Canada seems to have reached the lowest depths in her educational history. But, as brighter days dawned, she rapidly recovered herself, and has since gradually advanced in educational as well as material and political prosperity.

Our fifth point of illustration is—

V.—THE NUMBER, CHARACTER AND VALUE OF OUR EDUCATIONAL INSTITUTIONS.*

Circulars were sent to the authorities of each of the principal institutions named, but replies were only received from Institutions in Lower Canada before the publishers had to put the Almanac to press. An approximation has however been made in those cases in which the desired information has not been received, based upon the best available evidence.

Thus we see that, with a population of two millions and half, the total number of Educational Institutions in Canada of all grades is about 8,130; or one for about every 247 of the population. The number of students and pupils attending these institutions is 647,000; the estimated value of the sites and buildings devoted to the purposes of education reaches the princely sum of \$7,000,000; the value of school furniture, libraries, maps and apparatus, is about \$6,000; while the aggregate annual income of these

Educational Institutions amounts to \$2,072,500, or more than the entire revenue of the Provinces of Nova Scotia and New Brunswick taken together!

These statistics, with those in the preceding part of this article (in many cases approximative — though understated) are most cheering in their character, and present the *Educational Resources of Canada* in a very favourable light. They combine in themselves the evidence of what has been done and is still doing both by the government

and the rate-payers on the one hand, and by private and denominational benevolence and enterprise on the other, for the promotion of education in the country. They clearly demonstrate that the hearts of the people of the Province are deeply penetrated with the conviction of the national importance of a comprehensive scheme of education, embracing every description of educational institution and combining in its support all classes and creeds in the community.

The sixth point of illustration of our educational resources relates to the number and extent of the

VI.—PUBLIC LIBRARIES IN CANADA.

Before inserting the table on this head, it may be interesting to show what has been the extent of the demand for books in Canada for the last twelve years. The facts are highly encouraging, and speak well for the prevalence of an enlightened literary taste and growing intelligence among the various classes of the people.

The following STATISTICAL TABLE, which has been compiled from the Trade and Navigation Returns for the Province, shows the gross value of books (not maps or school apparatus) imported into Canada during the twelve years specified.

Year.	Value of Books entered at Ports in Lower Canada.	Value of Books entered at Ports in Upper Canada.	Total value of Books imported into the Province.
1850	\$101,880	\$141,700	\$243,580
1851	120,700	171,732	292,432
1852	141,176	159,268	300,444
1853	158,700	254,280	412,980
1854	171,452	307,808	479,260
1855	194,356	338,792	533,148
1856	208,636	427,994	636,628
1857	224,400	309,172	533,572
1858	171,255	191,942	363,197
1859	139,057	184,304	323,361
1860	155,604	252,504	408,108
1861	185,612	344,621	530,233
	1,972,828	3,084,115	5,056,943

Up to 1854, the Trade and Navigation Returns give the value on books entered at every port of Canada separately; after that year, the Reports give the names of the principal ports only, and the rest as Other Ports. In 1854, the proportion entered in Lower Canada was within a fraction of a third part of the whole, and, accordingly, in compiling this table for the years 1855-61, the value entered in Other Ports is divided between Upper and Lower Canada, in the proportion of two-thirds to the former and one-third to the latter.

Our seventh and last point of illustration is—

VII.—VARIOUS SUPPLEMENTARY AIDS TO EDUCATION.

It is not easy to form an estimate of the number or extent of these supplementary aids to education among us. They are very numerous and diversified, but are difficult to classify. In a summary sketch like this of our *Educational Resources*, no aid to education should be overlooked, however humble; for each in its place performs an important function, and contributes materially to the progress of education and intelligence among the people.

Among these supplementary aids we may enumerate the following, although we can in many cases scarcely classify them or estimate their number.

1. The Religious, Educational, Literary, Scientific, and Secular Press.
2. Bible and Tract Societies.
3. Religious Meetings and Public Lectures.
4. Historical Societies, Literary and Scientific Institutions.
5. Scientific Observatories and Museums.
6. Professional Schools of Theology, Law and Medicine.
7. Nurseries, Private and Indian Schools.
8. Literary Clubs and Debating Societies.
9. Young Men's Christian Associations.
10. Mercantile Library Associations and Reading Rooms.
11. Mechanics' Institutes and their Libraries.
12. Agricultural and Horticultural Associations and their Exhibitions.
13. Orphan Asylums and similar Benevolent Institutions.
14. Reformatory Schools and Jail Libraries.

These all perform their duty silently and effectively. Separately they are diverse, both in their character and operations; but combined, they form a mighty supplementary agency in the after-training of an individual. They develop his intellect, call forth his benevolence, cultivate his taste, extend the range of his sympathies, and give him additional interest to his daily life. Each one also, having in view a definite object of pursuit or taste or benevolence, gives when combined a concentration of purpose or effort, and thus supplies a want which cannot be furnished by ordinary educational training.

What nobler tribute to the spirit and genius of Christianity can be presented in any land than that such a vast supplementary agency, which in itself is chiefly benevolent or gratuitous, is being kept constantly at work through many hands to give living, practical effect, to the teachings of that Christianity in ameliorating the condition of society, and in uplifting the masses who have either passed from the school and the university into the outside world, or who have never enjoyed the advantages of either.

To recapitulate, it may be sufficient to say that the *Educational Resources of Canada* consist of—

\$613,000 acres of land set apart for educational purposes; \$563,803 annual state endowment of education; 2,327,262 local aid to education.

8,130 educational institutions.

547,000 pupils and students.

\$7,000,000 estimated value of school sites and buildings; \$415,000 estimated value of school furniture maps and apparatus.

\$530,000 worth of books annually imported into the province.

2,876 public libraries, containing—

767,644 volumes of books.

Together with numerous supplementary educational agencies to which we have just referred.

Canada, yet in comparative infancy, may well be proud of her *Educational Resources*. They are princely in their character and priceless in their worth. They demonstrate that her inner life is vigorous and active, and that if she fails in her high destiny as the brightest colonial jewel in the crown of her most gracious Majesty the Queen, her sons must have sadly degenerated from the noble spirit and heroic self-sacrifice of their devoted fathers, the United Empire Loyalists of America, and from those extraordinary men, who, fired with an untiring national zeal, sought amid unparalleled privation and suffering, to extend the dominion of France over this entire continent.

As these resources have yearly accumulated and have come down to us in such rich abundance, let us sacredly guard them and seek to extend their value and usefulness. Taking warning by other nations, let us neither dwarf their growth nor extinguish their light; but through God's blessing let us transmit them undiminished and unimpaired to those who come after us.

Courts.

COURT OF ERROR AND APPEAL.—Constituted for the hearing of appeals in civil cases from the Courts of Queen's Bench, Chancery and Common Pleas; and appeals in criminal cases from the Courts of Queen's Bench and Common Pleas. From the judgment of this court, an appeal lies to Her Majesty in Privy Council, in cases over £1,000, or where annual rent, fee, or future rights of any amount, are affected. **Judges:**—Hon. Sir John Beverley Robinson, Bart., C.B., D.C.L., Presiding Judge; Hon. Arch. McLean, Chief Justice of Upper Canada; Hon. P. M. M. S. Vankoughnet, D.C.L., Chancellor of Upper Canada, Hon. Wm. Henry Draper, C.B., Chief Justice of the Common Pleas; Hon. J. C. P. Esten, Vice Chancellor; Hon. Robt. E. Burns, Judge of the Queen's Bench; Hon. John Godfrey Spragge, Vice-Chancellor; Hon. William Bush Richards, Judge of the Common Pleas; Hon. John Hawkins Hagarty, Judge of the Court of Queen's Bench; Hon. Jos. Curran Morrison, Judge of the Court of Common Pleas. **Clerk and Reporter:** Alex. Grant.

COURT OF IMPEACHMENT—For the trial of Judges of County Courts in Upper Canada, under Con. Stat. U. C., cap. 14.—**Judges:**—Hon. Archibald McLean, Chief Justice of Upper Canada; Hon. Philip M. M. S. Vankoughnet, D.C.L., Chancellor of Upper Canada; Hon. Wm. H. Draper,

C.B., Chief Justice of the Court of Common Pleas. **Clerk:** W. B. Heward.

COURT OF QUEEN'S BENCH.—The jurisdiction of this Court extends to all manner of actions, causes and suits, criminal and civil, real, personal and mixed, within Upper Canada, and it may proceed in such, by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may hear and determine all issues of law, and also with the inquest of twelve good and lawful men (except in cases otherwise provided for) try all issues of fact, and give judgment, and award execution, thereon, and also in matters which relate to the Queen's Revenue (including the condemnation of contraband or smuggled goods) as may be done by Her Majesty's Superior Courts of Law in England. **Chief Justice:**—Hon. Archibald McLean; **Puisne Judges:**—Hons. Robert Easton Burns and John Hawkins Hagarty, D.C.L. **Clerk of the Crown and Pleas:**—Chas. Coxwell Small. **Reporter:**—Chris. Robinson. **Clerk in Chambers:**—W. B. Howard. **Clerk of the Process:**—R. Stanton. **Taxing Officer:**—John Small. **Clerk of the Pleas Department:**—John W. Dempsey. **Clerk of the Docket:**—Thos. Coxwell. **Registrar of Crown Bonds, &c.**—E. G. Small. **Clerk of the Vault Department:**—Thos. Goldsmith. **Crier and Usher:**—And. Fleming.

COURT OF CHANCERY.—This Court has the like jurisdiction as the Court of Chancery in England, in cases of fraud, accident, trusts, executors, administrators, co-partnerships, account, mortgages, awards, dower, infants, idiots, lunatics and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, staying proceedings at law prosecuted against equity and good conscience, and may decree the issue, repeal or avoidance of letters patent, and generally the like powers which the Court of Chancery in England possesses to administer justice in all cases in which there is no adequate remedy at law. **Chancellor:**—Hon. P. M. M. S. Vankoughnet, D.C.L. **Vice-Chancellors:**—Hons. James C. P. Esten and John Godfrey Spragge. **Master:**—And. Norton Buell. **Taxing Officer:**—Geo. Hemings. **Registrar & Reporter:**—Alexander Grant. **Special Examiners:**—John Hector and Wm. Vynne Bacon. **Usher:**—John Oliver.

COURT OF COMMON PLEAS.—This Court has the same powers and jurisdiction as Court of Record, as the Court of Queen's Bench. Writs of summons and capias issue alternately from either court. **Chief Justice:**—Hon. Wm. Henry Draper, C.B. **Puisne Judges:**—Hons. William Bush Richards and Jos. Curran Morrison. **Clerk of the Crown and Pleas:**—Lawrence Heyden. **Reporter:**—Edward C. Jones. **First Clerk:**—Augustus B. Sullivan. **Second Clerk:**—S. B. Clark. **Clerk of the Process:**—R. Stanton. **Crier and Usher:**—Daniel Connell.

PRACTICE COURT AND CHAMBERS.—One of the Common Law Judges holds a Court during each Term, called the "Practice Court," for hearing matters relating to the adding or justifying bail, discharging insolvent debtors, administering oaths, hearing and determining matters on motion, and making rules and orders in causes and business depending in either of said law courts. Chambers are held each day in Common Law and Chancery by one of the judges of the said courts, for such business relating to suits therein as may be transacted by a single judge out of court. **Clerk:** Wm. B. Heward.

HEIR AND DEVISES COURT.—Commissioners, the Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to lands in Upper Canada, for which no patent has issued from the Crown in favour of the proper claimants, whether as heirs, devisees or assignees. **Sittings:** at Toronto, first Monday in January and July in each year. **Clerk of Commissioners:** W. B. Howard.

COUNTY COURTS.—Presided over by a resident Judge in each county. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to £100; and to all bail bonds and recognizances of bail given in the County Court, to any amount: but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to either of the Superior Courts of Law. These Courts also possess equity powers, to the amount of £50, subject to an appeal to the Court of Chancery.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the

granting or revocation of letters of administration or letters of administration of estates or effects, and out of or connecting with administration or administration of estates or effects. **Surrogate Courts.**

COURTS OF QUARANTINE.—Judges in each of the Peace, holds four times a year, for the trial of misdemeanors and felonies.

RECORDERS' COURTS.—London, Kingston-upon-Hull, the place of the Sessions having no jurisdiction, confided to the **Magistrate of each Session.** **Recorders—Geo. B. London; J. B. Lester, Kingston; J. B. Lester, London; J. B. Lester, County Presides.**

DIVISION COURTS.—A Judge, but a certain cause. The or contract amount, chattels amount, debts, liquors, debts, therefore, ejectment, franchises, will on slander, crim. con. against a J. P. for his office, if he has two months in excess of the term of the Judge. **Division of Quarter Session.**

LETTER RATES.

Letters posted in Canada addressed to any place within the Province price, for 5 cents per $\frac{1}{2}$ oz., but if posted unpaid such letters are charged 7 cents per $\frac{1}{2}$ oz.

On Letters to Nova Scotia, New Brunswick, and Prince Edward's Island, the rate is 5 cents per $\frac{1}{2}$ oz., with optional prepayment.

The rates on Letters to the United Kingdom, by Canadian Packet,

Not exceeding $\frac{1}{2}$ oz. 12 $\frac{1}{2}$ cents.
Exceeding " and not exceeding 1 oz. 25 "

" 1 oz. and not " 2 oz. 50 "
and so on, increasing two rates of postage for each additional ounce.

And by Cunard Packet, 17 cents per $\frac{1}{2}$ oz., &c.

Letters for the United Kingdom must be prepaid, or they will be charged a fine of 6d. sterling on delivery.

Letters for British Colonies and Possessions beyond Sea, and Foreign Countries, via England, must be prepaid.

The rate on letters for the U. States, (except California and Oregon) 10 cents per $\frac{1}{2}$ oz.

" for California and Oregon 15 " "
" to Cuba 20 cents per $\frac{1}{2}$ oz.

The Postage rate to British Columbia is,
Letters..... 25 cents per $\frac{1}{2}$ oz.
Newspapers 2 cents each.

MAILS FOR CANADA FROM ENGLAND.

Two Ocean Steamers carrying mails for Canada leave Liverpool in each week, viz.: a Canadian Packet on every Thursday, via Derry on Friday, sailing to Quebec in summer and Portland in Winter, by which the Postage rate is 6d. stg. per $\frac{1}{2}$ oz.; and a Cunard Packet every Saturday, via Cork on Sunday, bringing Mails for Canada, alternately to Boston and New York, by which the Postage rate to Canada is 8d. stg. per $\frac{1}{2}$ oz.

The British Post Office forwards letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet" or "By British Packet"—and in that case they are kept over for the Packet designated. "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail," by whatever Packet forwarded.

REGISTRATION OF LETTERS.

Persons posting Letters containing value, should be careful to require them to be registered, and to obtain from the Post Master a Certificate of receipt for Registration.

The charge for Registration, in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada, or British North America 2 cents.

On Letters for the United States 5 "

On Letters for the United Kingdom 12 $\frac{1}{2}$ "

On Letters for British Colonies or Possessions, sent via England 25 "

On Letters for France and other Foreign Countries, via England, an amount equal to the postage rate.

Both the postage charge and registration fee must in all cases be prepaid.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter cannot, and the posting and delivery or non-delivery can be proven. A Registered Letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an Unregistered Letter.

MISCELLANEOUS CHARGES.

The charge on Parcels by the Parcel Post, which is limited to places within the Province, is 25 cts. per lb. (with 3 cts. additional if Registered.)

One cent per oz., payable in advance by Postage stamp, is the rate on Printed Circulars (Printed Circulars, if sent in envelopes, whether sealed or unsealed, are liable to letter postage). Prices Current, Hand Bills and other Printed Matter of a like character, and on Books, bound or unbound, when posted at a Canadian Post Office addressed to any place in Canada, British North America generally, or the United States.

The charge on Books, &c., by Book Post to England, is 7 cents on packets not exceeding 4 oz. in weight, 12 $\frac{1}{2}$ cents on $\frac{1}{2}$ lb. packets, and 12 $\frac{1}{2}$ cents additional for every additional $\frac{1}{2}$ lb. These charges must be prepaid. Photographs, provided they are not upon glass or in cases containing glass, may be forwarded to England at the Book rate of postage.

BOOK POST WITH FRANC.

For a Packet of Printed matter, or single News-paper, Book, &c. not over 2 oz. 4 cents.

Do. exceeding 2 oz. and " 4 oz. 8 "

Do. " 4 oz. and " 8 oz. 17 "

Do. " 8 oz. and " 1 lb. 34 "

And so on, increasing 17 cents for each additional $\frac{1}{2}$ lb.

The Book Post regulations between Canada and England apply to matter between Canada and France.

NEWSPAPERS AND PERIODICALS.

Newspapers published in Canada may be sent by Post from the office of publication, addressed to any place in Canada, at the following rates, if paid quarterly in advance by either the publisher at the post office where the papers are posted, or by the subscriber at the delivering post office:

For a paper published 6 times a week, 40 cents per quarter.

" 3 " 20 "

" 2 " 13 " "

" 1 " 6 " "

When the above rates are not paid in advance by either publisher or subscriber, such Papers are charged one cent each on delivery.

TRANSIENT NEWSPAPERS.

Transient Newspapers—that is to say, Canadian Newspapers posted otherwise than from the office of publication, and American or British papers posted or re-posted in Canada, must be prepaid 1 cent each, by postage stamp, or they cannot be forwarded—except only *British Newspapers* distributed to regular subscribers by Canadian Booksellers or News Agents—such papers pass free as they would do if received in the Canadian Packet Mails.

NEWSPAPERS BY MAIL FROM ENGLAND OR UNITED STATES.

Newspapers received from England by the Canadian Packet Mails are delivered free.

Newspapers from England by the Cunard Packet Mails are charged 2 cents each on delivery. (This is the American transit charge.)

United States Newspapers, brought by mail into Canada, are charged one cent each on delivery.

PERIODICAL PUBLICATIONS.

The rate on Periodical Publications is, if not exceeding 3 ounces in weight, 1 cent; over 3 ounces, 4 cents.

If prepaid by postage stamps from the office of publication, Periodicals published in Canada, weighing over 3 oz., may pass for 2 cents each.

Periodicals, printed in this Province, other than Newspapers, when specially devoted to the Education of Youth (both religious and general), to Agriculture, to Temperance, or to any branch of science, and addressed directly from the office of publication, to be transmitted to any post office in this Province, are exempt from charge.

Transient Periodicals—including Canadian Periodicals not prepaid the commuted rate from the office of publication—nor exempted by the preceding clause, and all other Periodical publications posted in this Province, must be prepaid by Stamp, the full rate, at the time of posting.

Periodicals received in Mails from the United States are charged with the rates named in the 1st case of this section.

MONEY ORDERS.

Money Orders payable in the Province may be obtained at any Money Order Office in the annexed list, at the following rates of commission:

Under and up to \$10	5 cents.
Over \$10 and not exceeding \$20	10 do.
Do. 20 do. do.	30 do.
Do. 30 do. do.	40 do.
Do. 40 do. do.	60 do.
Do. 60 do. do.	80 do.
Do. 80 do. do.	100 do.

N.B.—No half cents to be introduced in the Orders.

No single Order can be issued for more than \$100.

Money Orders, payable at any Money Order Office in Great Britain and Ireland, can be obtained at any Canadian Money Order Office. The Orders are drawn in Sterling, the commission chargeable being: for £2 and under, 25¢; over £2 and up to £5, 50¢; over £5 and up to £7, 75¢; over £7 and up to £10, \$1. No order can be drawn for more than £10, but any number of orders of £10 each may be procured.

POSTAGE STAMPS.

Postage Stamps are provided for sale of the respective values of 1 cent for Newspapers; 5 cents for ordinary Provincial Letters; 10 cents for United States rate; 12½ cents for Canadian Packet; and 17 cents for Cunard Packet.

Letter Envelopes are provided, impressed with medallion stamps, and equivalent to the prepayment of postage to the amount of 5 cents and 10 cents respectively.

The 5 cent envelopes will be sold to the public at the rate of \$5 50 per hundred, or 60 cents per dozen. The price of a single envelope is 6 cents.

The 10 cent envelopes will be sold at the rate of \$10 50 per hundred, or \$1 25 per dozen. Single envelopes 11 cts.

PENAL CLAUSES.

The Act contains the following penal clause:—

To inclose a letter or letters, or any writing intended to serve the purpose of a letter, in a Parcel posted, for the Parcel Post, shall be a misdemeanor.

To inclose a letter or any writing, or to make any written marks to serve the purpose of a letter, or to inclose any other thing in a newspaper posted to pass as a newspaper, at the rate of postage applicable to newspapers, (except in the case of accounts and receipts of newspaper publishers, which are permitted to pass folded within the newspapers sent by them to their subscribers,) shall be a misdemeanor.

List of Post Offices in Canada on the 1st October, 1863.

The Offices whose Names are printed in Italics are authorized to Grant and Pay Money Orders.—Those with an obelisk (†) are Sub-Offices.

Goodwin, Fencing, Drill, and Gymnastics.

The College year commences with the Autumn Term.

The Autumn Term begins September 10; Winter do., Nov. 20; Spring do., Feb. 15; Summer do., May 1. Reports of the progress and conduct of the pupils are sent to parents twice each Term, or oftener if desired. Deducting the Vacation, the Terms are ten weeks each. The Tuition Fee is \$10 for one pupil, \$9 each for two (Brothers), \$8 each for three (Brothers), \$7 each for four (Brothers); and the Fee for Boarders, inclusive of Tuition, is \$45 per Term. The many improvements made in the arrangement of the College Boarding House have been found to add very materially to the comfort of the boarders. A large paved Ball Court and a Gymnasium, fitted up with the most approved modern appliances, and a spacious play-ground and cricket ground afford ample facilities for out-door exercise and amusement within the College bounds. The Boarding House is conducted strictly as an integral part of the Institution, its disbursements paid out of, and its returns paid into, the general funds. Prizes of books and certificates of honor are given every year to those who distinguish themselves in any of the subjects taught in the College. His Excellency the Governor General offers annually a valuable Prize of Books for the best examinations in the higher departments of the College Curriculum. At the Annual Public Examination in July Exhibitions are competed for, varying in value from \$120 to \$40 per annum. Competition for them all is open to the Grammar Schools of the whole Province. More than 2,500 of the youth of the Province have received their education, in whole or in part, in Upper Canada College. The First Classical, and the Mathematical Masters were pupils of the Institution; as were likewise the greater portion of the Medal-men, Scholars, and Honor-men of our Universities.

THE CANADIAN LITERARY INSTITUTE is located at Woodstock, and is under the control of the Regular Baptist Denomination. It has three different departments, viz.: Primary, Higher and Theological, the average attendance on which consists of fully 100 students. The Primary School is attended by pupils over eleven years of age, who study the various branches of an ordinary English education. In the Higher Department the students are prepared for the study of Theology, or for matriculation in Arts, Law or Medicine. The fees for attendance on these departments vary from \$20 to \$23 per year. In the Theological Department, attended by about 30 students, the tuition is *gratis*. The year is divided into three terms of about thirteen weeks each, commencing the second week of Jan., April and Sept., respectively. Faculty of Instruction:—Rev. R. A. Fyfe, D.D., Principal, and Prof. of Theology; Rev. Wm. Stewart, B.A., Classical and Hebrew Tutor; C. B. Hankison, B.S., Mathematical Tutor; W. D. Ballantyne, Teacher of English and French; P. S. COMMON SCHOOLS.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are selected to manage its School affairs. In cities, towns, and villages, the schools are managed by a Board of School Trustees, elected for the Municipality. There were 4,019 Common Schools, with 320,918 pupils, in Upper Canada, in 1861.

PUBLIC SCHOOL LIBRARIES.—Each School and Municipal Corporation, desirous of establishing Free Public Libraries, is aided by the Educational Department granting 100 per cent. on local appropriations, and supplying books from the Depository in connexion with the Department. Up to the end of Dec. 1861, about 481 Libraries had been established, containing more than 1100 sub-divisions, and 193,220 vols.

EDUCATIONAL MUSEUM.—Connected with the Educational Department is a Museum, containing specimens of School apparatus and furniture; a valuable collection of Italian, Dutch and Flemish Oil Paintings and Statuary casts and busts. The Museum is freely open to the public.

THE TOTAL NUMBER OF EDUCATIONAL INSTITUTIONS of all kinds reported by the Educational Department as in operation in Upper Canada during 1861, was 4,459, attended by 344,118 pupils, and expending \$1,670,023 in their support.

Under the superintendence of the Council of Public Instruction, Lower Canada.

JACQUES-CARTIER NORMAL SCHOOL MONTREAL.—Rev. H. Verreau, Principal, Professor and Director of Students' Boarding School; Leopold Devisme, B.A., Ordinary Professor; F. Birtz, Maitre d'Etude; François J. V. Regnaud, J. Brauneis, F. M. Osseay, Tancrède Dostaler, Patrick Delaney, Dom. Boudrias, Associate Professors.

MCGILL NORMAL SCHOOL, MONTREAL.—J. W. Dawson, LL.D., Principal and Associate Professor; W. H. Hicks and Samuel Paul Robins, Ordinary Professors; J. Duncan and

R. J. Fowler, P. J. Dairey, M.A., Associate Professors; Job McGregor and Mary McCracken, Teachers in Model School.

LAVAL NORMAL SCHOOL, QUEBEC.—Rev. Jean Langevin, Principal, Ordinary Professor, and Director of the Students'

Boarding School; F. X. Tousignant and N. Lacasse, Ordinary Professors; Ernest Gagnon, Norbert Thibault, Associate Professors; F. N. Fortier, Maître d'Étude; Andrew Doyle, Associate Professor and Teacher of Boys' Model School; J. B. Cloutier, Teacher of Boy's Model School. The Ladies of the Ursulines have charge of the boarding department of the female pupil-teachers, and attend to part of the Normal School teaching, and the girls' Model School.

THE BELLEVILLE SEMINARY.—Incorporated, 1857.—This Institution is the property of the Methodist Episcopal Church, but free to all denominations, no religious creed being taught in it, and students being required to attend such places of worship as their parents or guardians may direct. It is affiliated to the University of Toronto. Ample accommodation is afforded for the instruction of two hundred students. Both sexes are included in the provision; ladies being instructed in the ornamental as well as solid branches, and gentlemen being afforded a commercial, mathematical, and classical education. Ladies may take a thorough course of instruction, prepared expressly for them, and receive degrees and diplomas. The following compose the Faculty and Board of Instruction: Rev. A. Carman, M.A., Principal, and Professor of Mathematics, History and English Literature; Rev. H. P. Shepard, M.A., Professor of the Latin and Greek Languages; H. W. Bennett, B.A., Professor of Natural Science, and Rector of English Department; Miss Julia McKellar, Pianistress, and Teacher of Music, Piano, Melodeon and Guitar and the

French Language; Mrs. A. Carman, Assistant in French and Music; Mrs. H. P. Shepard, Teacher of Drawing and Painting of all kinds. Besides the above, others, not of the Faculty, are employed to teach in the institution. The academic year is divided into two sessions; the first session, which consists of twenty-nine weeks, or two terms, commences on the first Thursday in Sept., and ends about the middle of April following; the second session commences on the first Thursday in May, and continues thirteen weeks.

SHARES, \$50 EACH.

Accumulating Shares Mature in Four Years.—New Investing Shares are issued every month.—Dividends on Capital Stock payable Half-yearly.

SAVINGS BANK BRANCH.

Sums of Four Dollars and upwards are received by the Society on deposit, subject to withdrawal, and bearing interest at Six per cent. per annum. The Capital and Assets of the Society, invested in Mortgages on first class Real Estate, being pledged for the security of Money thus received, Depositors are at all times assured of perfect safety.

MONEY TO LEND.

This Institution Advances Money on the security of Improved City or Farm Property, repayable by Instalments payable monthly, quarterly, half-yearly, or yearly, spread over any term the Borrower chooses, from ONE TO TEN YEARS, at the following

REDUCED RATES.

Monthly Repayments on an advance of \$100, to be paid off in

The Farmers' Branch of this Company is in full operation, issuing 100 Policies per month. It is sustained by a special Guarantee Fund of Ten Thousand Dollars, with the names of the Hon. John Hillyard Cameron, Sheriff Smith, W. M. Kelly, Esq., and other influential gentlemen, as Stockholders. No other Farmers' Mutual Company has a Cash Guarantee Fund over and above the security of the premium notes of insurers.

No Risks taken upon Hazardous Property in either the Farmers' or the General Branch.

Farm Property is insured for Three Years, for which Premium Note of two per cent is taken, and one-fifth called in at a convenient season in each year. It is not expected that more than three-fifths of the Note will ever be called in, unless extraordinary losses are sustained. Persons insuring their own property, may be insured for \$1 cash, besides agent's fees, and will be assessed in three months' time for one-fifth of the premium note, and the same sum annually so long as the Policy is in force; or they may pay one per cent. in cash at the time of insurance, in full of the three years' assessments.

Under the Provincial Statute, 22 Vic., cap. 52, under which this Company is established, insurers in the Farmers' Branch are exempt from all liability for Losses in the General Branch.

No Risks are taken upon Hazardous Property, such as Mills, Bakeries, Distilleries, and Manufactories generally; and according to the experience of similar Mutual Companies, THE COST OF INSURANCE IN THIS ASSOCIATION ON ISOLATED PROPERTY CANNOT EXCEED A TRIPLE OVER ONE PER CENT. FOR THREE YEARS, or about one-third of the sum charged by Proprietary Companies, which require large profits to cover their heavy office expenses and losses from extra hazardous risks. Owners of Non-Hazardous Property in Cities and Towns may avail themselves of the same Low Rates with those in the country, and will find it to their interest to patronize this office.

PERRY'S CORDIAL BALM OF SYRIACUM

RESTORES the impaired powers of life when exhausted by nervous or acquired debility. It has the effect of restoring and increasing the natural vigour of those who are suffering from prostration and languor produced by sojourning in the colonies or in hot climates. Thousands have been restored to health and vigour by its use, as sworn to on oath before the Right Hon. Matthew Wood, Lord Mayor of London, and the following Aldermen,—Sir John Eamar, George Scholey, Esq., John Atkins, Esq., and others.

Price 11s. per bottle, or four quantities in one for 3s. which saves 1s.; and in 2s bottles, effecting a saving of 2s 1d.

PERRY'S CONCENTRATED DETERSIVE ESSENCE, is recommended for all those diseases for which mercury, &c., are not only employed in vain, but too often to the utter ruin of health. Its action is purely deterative, and its beneficial influence on the system is undeniable. Price 11s. and 3s. per bottle, also a saving of 1s.

PERRY'S PATENT CONCENTRATED ESSENCE OF COPAIBA AND CUBEB SUGAR-COATED GLOBULES.

An agreeable preparation of the very essence of the Balsam of Copaiaba and Cubeb, perfectly tasteless, still retaining at the same time all its curative powers. In all cases of Gonorrhœa, Gleet, Stricture, &c., a single trial will prove the efficacy of this invaluable remedy; as it at once acts upon the kidneys, bladder, and the urino-genital organs, restoring them to their healthy state. Price 11s. and 3s. per box.

HEALTH DEPENDS UPON PURE BLOOD.

PERRY'S PURIFYING SPECIFIC PILLS, an infallible cure for all diseases of the skin, such as scurvy, scrofula, ulcers, boils, blisters, pimples on the face and body, &c. Price 11s. and 3s. per box.

ON NERVOUSNESS, RELAXATION AND EXHAUSTION.—New edition, enlarged to 190 pages, illustrated by 100 Anatomical coloured Engravings on steel, just published, price 2s. 6d.

G. & C. MERRIAM, Springfield, Mass.

“The eighty pages of Illustrations, comparable in fineness to those of bank notes, are worth the price of the book.”—*Oh. Herald.*

PICTURES IN A DICTIONARY.—A neat cut or diagram will often give a better definition of a term than a page of letter press. In respect to size, completeness, mechanical execution, and variety of subjects, Webster's are unquestionably the best. Worcester's, though many of them are well enough, are, on the whole, a failure. They are very small, many of them are obscure, and the assortment ill-proportioned. Ornithology, somehow, achieved a singular monopoly in their allotment. Of 973 cuts in all, 324, or one-third, are birds or fragments of birds; and of this 324, no less than 101 are merely heads or bills of birds. Botany has 144; Quadrupeds, &c., the same; Fishes, 77; Mathematics and Mechanics, together, about 100; Architecture 80; Miscellaneous, Domestic Arts, &c., 70; and Physical Science, a few. Reptiles and Insects are as rigorously excluded as from Ireland.—*New Englander.*

WEBSTER'S GREAT DICTIONARY.—We learn with much pleasure from the publishers, Messrs. G. & C. Merriam, Springfield, Mass., that the new Pictorial Edition of “Webster's Unabridged Dictionary” is having a very extended sale. Every school, every office, may every dwelling, should be provided with it. It is the standard not only for spelling and definition, but also for correct pronunciation. The amount of general information which is also condensed within its pages is truly astonishing. In the course of a very extensive professional practice we have frequent necessity to seek out and apply the best technical terms and descriptions. Webster is our constant recourse, and we never consult him in vain. It is surprising to observe how replete the work is. As an educational medium it enjoys a very high reputation. For the schools of New York state no less than ten thousand copies have been purchased, while in Massachusetts, Michigan, New Jersey and Wisconsin an equal number has been obtained, or one copy for almost every school. It is said that more than ten times as many copies of Webster are sold as of any other similar publication.—*Scientific American*, May, 1862.

No. 79 FRONT STREET, TORONTO,

HAVE just completed their NEW MAP of UPPER CANADA, exhibiting Counties, Townships, Concessions and Lots, with the Numbers, Cities, Towns and Villages, Country Post Offices, &c. &c. &c., being on a larger scale and far more complete and accurate than any other Map published.

Have also on hand DESCRIPTIVE MAPS of the Counties of Oxford, Brant, Norfolk, Halton Peel, York, Ontario, Waterloo, Durham, Middlesex, Lincoln, Welland. In progress and about to be published, Elgin, Prince Edward, and Perth. Also a MAP OF LOWER CANADA, somewhat similar to the MAP OF UPPER CANADA.

THE DRAWN MAPS.
A CARD TO THE PUBLIC.

We wish to expose the deception being passed upon the Public by certain parties interested in the sale of a work styled "TACKABURY'S MAP OF CANADA WEST." This Map has been represented to the Public all along as executed in Canada, and a large number of the Subscribers to the Map have been influenced by such representations. When the fact is, the Map has been drawn, engraved, printed and coloured, altogether, in New York; and though, to give some colour to their statements, a part of the Maps have been mounted in London, many of them have been sent from New York all finished and ready for delivery to the Subscribers. It has been also claimed that their Map would be "on Copper," and therefore incomparably superior to ours. We have lately learned and are prepared to prove that their Map is printed from Lithographic Stones in precisely the same manner as ours; and as for its superiority, the two Maps were exhibited at the late Provincial Exhibition in this City, side by side, being entered in the same class, when our Map took the HIGHEST PRIZE over theirs, and a Diploma also, while they got none for their Map. In order to get into the market a-head of us, they brought out their Map in so incomplete a state that they have already had to make many important alterations and additions, as any one can see by comparing the Maps delivered first and those that they are now delivering; and now they coolly "Caution the Public against certain parties who have rented rooms in Toronto, and are hurriedly getting out a Cheap Lithograph Imitation of their Maps, styled Tremaine's Map of Upper Canada, &c. &c. &c."

If the public will bear in mind the fact, that we have been engaged for the last eight years collecting the materials for this Map, during which time we have got up Descriptive County Maps of sixteen of the oldest and most wealthy Counties in Upper Canada—and that four years ago, at an expense of several thousand dollars, we fitted up an Establishment in this City, where all of the work upon our Maps has since been done—and that during this time we have expended tens of thousands of dollars in the Province, for wages, materials, &c. &c.—and that the Messrs. Tackabury have never resided in the Province until they came here with Specimen Sheets of their Map to commence the canvas for it, but have used our County Maps in the construction of a large portion of their Map—they will be able to estimate the deception, falsehood and downright meanness, that these parties have resorted to in the canvas for their Map. As a further refutation of the charge of copying their Map, we take this opportunity to mention some things on our Map not shown on theirs, viz., the Algoma District, a large and important portion of Upper Canada, containing already about 5,000 inhabitants, with fifteen Townships laid out in farm lots. The survey of the Townships of Dalton, Digby, Ryan, Longford, Oakley, McLean, Hindon, Ridout, Stephenson, Sherborne, Guilford, Harburn, Dysart, Dudley, Harcourt, Monmouth, Cardiff, Chandon, Glamorgan, Cavendish, Cashel, Richards, Hagarty and Lyndock; also the Nipissing Road; a large portion of the Pettawa and Maganetewan Rivers, &c. &c. &c. Several of these Townships they have already added to their Map, and they will undoubtedly have the whole soon copied.

THE GREAT AMBASSADOR OF HEALTH TO ALL MANKIND!

HOLLOWAY'S PILLS & HOLLOWAY'S OINTMENT

A BOON TO THE SICK!

The want of a sterling medicinal to meet the ills and necessities of the suffering portion of humanity, and one entirely free from mineral and other deleterious particles, was severely felt till this all powerful Medicine was ushered into the world; HOLLOWAY'S INVALUABLE PILLS have become the HOUSEHOLD REMEDY of all nations. Their attribute is to PREVENT as well as to CURE: they attack the RADIX OR ROOT of the complaint, and thus by removing the hidden cause of disease reinvigorate and restore the drooping energies of the system, assisting nature in her task of VITAL and FUNCTIONARY REFORMATION.

DYSPEPSIA.—The great scourge of this continent yields quickly to a course of these antiseptic Pills, and the digestive organs are restored to their proper tone: no matter in what hideous shape this hydra of disease exhibits itself, this searching and unerring remedy disperses it from the patient's system.

GENERAL DEBILITY AND WEAKNESS.—From whatever cause, LOWNESS OF SPIRITS, and all other signs of a diseased Liver, and other disorganization of the system, vanish under the eradicating influence of this all powerful antiseptic and detergent remedy.

BILIOUS DISORDERS.—The proper quantum and right condition of the bile is of momentous importance to the health of the human frame, this ANTI-BILIOUS medicine expels the hidden seeds of the complaint, and renders all the fluids and secretions pure and fluent, cleansing and reconstituting the vital functions of the body.

Holloway's Pills are the best Remedy known in the world for the following Diseases.

Asthma, Bowel Complaints, Coughs, Colds, Chest Diseases, Costiveness, Dyspepsia, Diarrhea, Dropsy, Debility, Fever and Ague, Female Complaints, Headaches, Indigestion, Inflamation, Inward Weakness, Liver Complaints, Lowness of Spirits, Piles, Stone and Gravel, Secondary Symptoms, Venereal Affections, Worms of all kinds.

CAUTION!—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a WATER-MARK in every leaf of the book of directions around each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

* * Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in boxes at 25 cts., 63 cts. and \$1 each.

There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

BY DR. GEO. WEBER, PROF. AND DIRECTOR OF THE HIGH SCHOOL, HEIDELBERG.

8vo. 575 PAGES, PRICE \$1.67. SENT BY MAIL ON RECEIPT OF PRICE.

The English edition of this work was translated by Dr. M. Behr, Professor of German Literature in Winchester College, and the American edition was prepared by Professor Bowen, of Harvard College. This work has met with unprecedented favor, and has become the Standard Text-Book in many of the Colleges, Academies, and High Schools in the United States. The recommendations received by the publishers would fill a volume. All unite in saying that it is the best compend of Universal History ever published. A valuable Index has recently been added, wherein the pronunciation of the names mentioned in the work is accurately represented,
